Issue #27 14 October 2026

NewAthena SWG2 Meeting: registration and abstracts

Registration and abstract submission for the NewAthena SWG2 Meeting on *Galaxies and Supermassive black holes* is now open. Use the **registration link** to proceed.

The abstracts submission deadline is **23 October 2026.**

The NewAthena SWG2 Meeting will take place at Noordwijk (The Netherlands) from 25 to 29 January 2027. This five-day meeting, organised by the NewAthena Science Working Group 2 (SWG2), brings together researchers working on galaxies and supermassive black holes in X-rays. The meeting is science-driven: centred on the presentation and discussion of results spanning the full scope of SWG2 science.

NewAthena Science Conference: call for abstracts

Next NewAthena Science conference, in Prague, opens the abstracts submission period: the deadline is **19 November 2026.**

⚠ **Please, check carefully the instructions detailed on the conference web page before submitting your abstract as it implies an Indico pre-registration.**

The meeting will bring together the international high-energy astrophysics community to discuss the mission's scientific goals, future observing programmes, and synergies with current and upcoming facilities. The conference will provide a forum for presenting recent scientific results, strengthening collaborations, and maximising the scientific return of ESA's next flagship X-ray observatory.

Next Webinar on 21 October 2026

On **21 October 2026**, we launch a new series of webinars starting with **Konstantinos Migkas**, Leiden University, talking about "*A robust spectroscopic detection of pure WHIM and the missing baryons throughout a pristine cosmic filament and the potential of NewAthena.*".

In the ACO webpage for webinars you can find all the connection details.

Coming conferences of interest

- A NICER Legacy: Neutron Stars, Black Holes, and Time-Domain Astronomy, Maryland (USA), 2-4 November 2026.
- Galaxy Nuclei – Diversity, Dynamics, and Hidden Mass in Galactic Centers, Santiago de Chile (Chile), 16-20 November 2026.
- LARIM 2026, XVIII Latin American Regional IAU Meeting, Cancun (Mexico), 30 November - 4 December 2026.
- IAU Symposium: AGN Jets from Gamsberg to Multi-Messenger Frontier, Windhoek (Namibia), 12 - 28 January 2027.
- The NewAthena SWG2 Meeting, Noordwijk (Netherlands), 25-29 January 2027.
- NewAthena SCIENCE CONFERENCE, Prague (Czech Republic), 19-23 April 2027.
